

Weekly Report 4

Team 44

Project Title: Senior Design Lifecycle

Date: 10/31

Members:

Seth Gardner

Tyler Staker

Kyle Kent

Brady Synstelien

Jake Gudenkauf

Yunhao Yang

Gavin George

Matthew Karr

What we've accomplished in the past week/what we've been researching

Seth Gardner - Worked on setting up local dev environment for Laravel and created documents outlining Object Models and API Routes

Tyler Staker - Look more into how Laravel and Angular function.

Kyle Kent - Looked into some faculty and client interaction with proposing projects. Have a list of data with what information is given to professors on access plus.

Brady Synstelien - Set up and run the front end code base. Assisted with the design doc assignment. Initial research into set up process for laravel backend.

Jake Gudenkauf - continued research and practice with laravel and angular

Yunhao Yang - Change market research to after the Designing algorithm. And do some further think of algorithm

Gavin George - Started brainstorming what was needed from backend to work with permissions. Met and discussed what was needed for authentication from frontend. Helped with the start of planning objects.

Matt Karr - Looked at the tables and thought what more could be added.

What we're planning to do in the coming week

Seth Gardner - Iron out issues with Laravel skeleton deployment and design API calls

Weekly Report 4

Tyler Staker - Determine what needs help on when it comes to Laravel/Angular

Kyle Kent - Look into some security and creating some components in angular.

Brady Synsteliem - Set up and run laravel code base from the virtual server.

Jake Gudenkauf - find out where else on the project anyone needs assistance with

Yunhao Yang - Try to design the algorithm for generate the ranking number while doing the matching

Gavin George- Continue looking into login and what is needed for the view components.

Matt Karr - Update the tables to reflect some of the changes brainstormed with team.

Issues we had in the previous week

Seth Gardner - None.

Tyler Staker - No issues the past week.

Kyle Kent - Not any issues this week.

Brady Synsteliem - No issues the past week

Jake Gudenkauf - No issues the past week

Yunhao Yang - No issues the past week

Gavin George - No issues the past week

Matt Karr - No issues the past week.
